## THE WILLY

2 Berth Campervan

Self Contained Toyota Hi-Ace 2006-2014 Model, Automatic

The Willy is king when it comes to comfort for two people, with everything you need, and nothing you don't. Being low makes it nice and easy to drive whilst still being self contained so you can go wherever you want and bring your full size queen bed with you.

During your travels in New Zealand you will see variations of these campers everywhere because of their amazing reliability. So take confidence in knowing the van you are renting is tried and true.

Barefoot is a family owned and operated business and is proud to have an in-house team to build these beauties, which means we can pass the savings on to you! (If you find a better price, ask your agent about a price beat!)

Our Willy campervans are 2019-2021 builds, which means they are fresh and clean for you to relax like it's your own little home.
